

Oil-Dri® clay absorbents

OIL-DRI® CLAY ABSORBENTS HAVE ALWAYS BEEN A 100% all-natural earth product free of chemical treatment. Oil-Dri has been practicing environmental awareness through responsible mining and manufacturing long before it was mandated to do so, since 1941. Oil-Dri® is a supplier of a full line of absorbent products. They offer top quality granular absorbents as well as a complete line of oil-only, haz-mat and universal synthetic absorbents including pads, rolls, socks, spill kits and more. These are products that have many uses for the at home garage mechanic. For more information contact John Tornese, Product & Marketing Specialist, Oil Dri Corporation of America, john.tornese@oil dri.com, 800-233-1959 x 2521.

Rob Enjoys his Prize!

ROBERT HICKS, WINNER OF AN IMTBike TOUR AT THE 2010 BMW MOA Rally, rides Andalucia!

Last year, IMTBike gave away a free tour at the closing ceremonies of the 2010 BMW MOA RALLY in Redmond, Oregon. The lucky winner was Robert Hicks from Pigeon, Michigan, and he joined our special BMW MOA Andalucia Tour in April, 2011.

This was the second annual BMW MOA Andalucia Tour. The tour focuses on Southern Spain, famous for its Moorish influence, the white "pueblos", flamenco dancing, olive trees, bravo bulls and no shortage of great serpentine curves.

Robert enjoyed this unique tour, riding 1200 miles during 7 days in sunny Spain on a brand new BMW F650GS twin. Robert stated, on returning his motorcycle in Sevilla after the tour, that "it was a motorcycle trip of a lifetime!" IMTBike is happy to know Robert enjoyed the tour so much.

IMTBike will be giving away another free tour at the 2011 BMW MOA Rally in Bloomsburg, Pennsylvania. Let's see who the next lucky winner will be! For more information about IMTBike's tours and rentals please visit: www.imtbike.com.

Compass Expeditions takes motorcycle touring to the mainstream

THE COMPASS EXPEDITIONS 18-DAY "PATAGONIA Explorer" has just been selected by National Geographic magazine as one of the top 50 tours of a lifetime. "We are the only motorcycle tour operator to receive this wonderful accolade" says a happy Mick McDonald, a Compass Expeditions director. The selection process at National Geographic was competitive and their editorial team worked long and hard to find 2011's most authentic, most innovative, most immersive, best-guided, and most sustainable tours. "The outfitters we selected continue to find new ways travelers can connect with places and people," notes senior editor Norie Quintos, who headed up the project. "More and more, it's about human interaction."

"At Compass Expeditions we strive to provide simply the very best in motorcycling touring in the world today" Mick continues, "we are a small company and to be ranked amongst the giants of the travel industry is hugely rewarding"

For more about this world class motorcycle tour go to <http://www.compassexpeditions.com/2008-2009/tour-patagonian-explorer-17-days.html> or contact Mick on +61 3 5368 6473 (outside Australia) or 1300 887 327 (within Australia)

In addition, to this Compass Expeditions has also been included into the small yet prestigious group of BMW Official Travel Partners. We are the only Australian motorcycle tour operator to have been included into the BMW family.
