## Iberian Moto Tours and BMW MOA Organize Second Annual BMW MOA Andalucía Tour of Spain

**THE BMW MOTORCYCLE OWNERS OF America** has announced the dates for the second BMW MOA Andalucía Tour presented by IMTBike. The tour will begin in Sevilla, Spain on March 18, 2011 and conclude 9 days later on March 27, 2011.

This is the second tour organized by IMT Bike for the BMW Motorcycle Owners of America. This tour starts and ends in beautiful Sevilla Spain and will take you 1200 miles through sunny Andalucía, a region famous for its Moorish influence, white-washed "pueblos", delicious "tapas", flamenco dancing, olive trees, and bravo bulls used in the "Corrida de Toros."

In Andalucía, there is no shortage of great serpentine curves with the Sierra de Grazalema and Sierra Nevada Mountain ranges. All roads are well-paved, full of

twisties and sweepers, and there is very little traffic. This special BMW MOA tour has two rest days, in Ronda and Granada, to give you time to sightsee in these incredible towns.

transport luggage and large items or purchases and tour polo.

BMW MOA member Doug Waines attended the 2010 tour and says "the personalized experience with Iberian Moto Tours has taken our travel experiences to another level of enjoyment. You can read more about the 2010 trip in the September BMW Owners News.

Scott Moreno personally led our group on a two week tour packed with adventure, culture, history, scenery, phenomenal food, first class accommodations and fabulous roads."

The trip was so popular with BMW

MOA Members that Scott Moreno, Managing Director of IMTBike, decided to lead the tour personally. "The BMW MOA Andalucía Tour was my personal vacation trip for the year," remarks Moreno. "BMW MOA members have always been a great group of people to take on tour. I hope with my personal involvement, BMW MOA members on the Andalucía Tour had an opportunity to uncover even more of beautiful Spain that they might not ordinarily experience."
